Subject: Cyber Threats Alert

Dear All Valued Customer

At the current situation, the Conducting business both domestically and internationally using financial transaction channels via electronic systems to facilitate and increase the speed of transaction that makes it easy to access information and send data quickly which is any way for Malicious person who try to create fraudulent tricks with financial transactions via electronic channels such as Theft of personal information by trapping data from online purchases, Sending fraudulent emails to enter important information, Create a fake email / account to be an acquaintance person close to convincing to transfer money.

Sea Oil Public Company Limited (“the Company”) sees cyber threats about financial transactions through electronic channels. Therefore, the company would like to notify that the Company have not a policy to request personal information of customers or notify changes to bank accounts to customers via email channels. If a bank account is changed for money transfer, the company will notify the changed as letter to send registered mail. Along with allowing the financial officer to notify the bank account information to customers via telephone only.

Please be informed accordingly.

Sincerely Yours,

(Ms. Neeracha Panboonhom)

President & Chief Executive Officer
